The Plumbette is Rebecca's blog that covers all aspects of being a female tradie, while offering inspiration and upcoming trends in plumbing, home interiors, renovating and building construction.

[poured concrete in drain - RIDGID Plumbing, Woodworking ...](#)

Re: poured concrete in drain the trap is solid abs, not foam core, the pipe is foam core. I would try a 4 blade auger as the concrete should not be as hard as real poured, but more like a slurry watered down mix.

[How to Replace a Shower Drain in a Concrete Slab | Hunker](#)

Loosen the bolts that are holding the pipe rough-in and the drain into the concrete floor. Use the wrench set to determine the proper wrench size to loosen the screws. Remove the bolts so that you can remove the top of the drain, known as the drain cover, separating it from the flange and the actual drain attachment.

[How to Pour Concrete Around PVC Pipe | Hunker](#)

Clean the pipe to remove dirt and debris that could reduce the effectiveness of the concrete-to-PVC seal. Step 2 Mix enough concrete to fill the area you require using water and "hydraulic" cement powder; prepare the mix in a large, plastic container.

[How to Do a Trench Drain in Concrete | Hunker](#)

The traditional system consists of building a wood form and pouring concrete. Another option makes it easier for do-it-yourself installations by using a presloped drainage system in kit form. Many manufacturers of these systems use a polymer concrete material to fabricate channels and accessories. The installer only has to assemble the system and pour the concrete.
