air conditioner works great, it cools 7500 btu, dehumidifies, heats, and 3 speed fan, one exhaust hose and fitting for window, tank on the unit is a pull out type to empty and the extra large tank that goes with it is great holds extra 2 gal.

Best Central Air Conditioner 2018 - Brand Reviews and Ratings

Many central air conditioner models come in multiple sizes, so you can choose the most appropriate one for your home's square footage. If a central AC unit is too small, it wastes energy and struggles to produce consistent cooling on the hottest days. If it's too big, you paid extra when a smaller model would be more energy efficient and it won't dehumidify your home as effectively. A

Types of Air Conditioners - Which is right for you?

When comparing central air conditioners, one term you'll see repeatedly is the seasonal energy efficiency ratio (SEER), a measure of how much energy the air conditioner uses to cool a home. Central air conditioners range from 13 to 28 SEER. The SEER is calculated by taking the total cooling output over the course of a summer, measured in British thermal units (BTUs), and dividing it by the
