...

An outdoor motion sensor light will react to the movement of your dog, an approaching person, a passing car or sometimes even wind-blown leaves. Nuisance trips, such as blowing leaves or a passing car, can fool the detector and turn the motion sensing lights on when you don't want them.

[The 10 Best Motion Sensor Lights of 2018 | SafeWise](#)

A motion sensor (or motion detector) is the linchpin of your security system, because it's the main device that detects when someone is in your home when they shouldn't be. A motion sensor uses one or multiple technologies to detect movement in an area. If a sensor is tripped, the light floods the surrounding area and illuminates anything in its path.
