Refacing cabinets is a quick and easy way to change the look of your kitchen without the mess and expense of a complete remodeling. You simply cover the cabinet face frame with self-sticking wood veneer and the end panels with 1/4-in. plywood.

[Kitchen Cabinets: Should You Replace or Reface? | HGTV](#)

Cabinet refacing is also a much less involved process than removing old cabinets and installing new ones. "Refacing is an ideal option for many people because of its convenience," says Cheryl. "The process doesn't require removal of the appliances, so the kitchen stays functional while the work is being done."

[How to Reface Kitchen Cabinets | This Old House](#)

Refacing cabinets is really just a matter of switching out the doors after covering all the exposed parts of the frame with veneer that matches the new finish. This technique works well with cabinets that have partial-overlay doors where the face frame is visible. But you can still reface cabinets with full-overlay doors, which have no face frame, and flush-inset doors, on which the face frame

Cabinet refacing has become more popular in the last few

years, due to the explosion of companies that do nothing else but reface cabinets. Other companies, such as Kitchen Tune-Up, make their bread and butter with refacing projects, but also take on supplemental jobs like bathroom remodeling and wood reconditioning.

#### **Kitchen Cabinet Refacing: Pictures, Options, Tips & Ideas ...**

Your other option for refacing is to strip wood cabinets of their stain, sand down to bare wood, and finish the cabinets with new stain or paint. This is a more labor-intensive process, but it's a viable option if a press-on veneer isn't appealing to you.
